From Texas Agricultural Experimental Station.

J. H. Connell, Director, College Station, Texas.

A card.

The Texas Agricultural Experimental Station is conducting a number of important tests with grain, grasses, feeds, cotton, corn and manure, vegetables and live stock. These results are sent to the people of the state free of all cost when asked for. The main station is located on the grounds of the Texas Agricultural and Mechanical College, postoffice, College Station, which is five miles from Bryan, in Brazos county.

This main station is supported entirely by the general government. There are two branch stations in the state, one located at McKinney, Collin county, the other at Witchita Falls, Witchita county. Many valuable experiments are being tried at both these points and results will be published.

The officers of the Station have a large and valuable correspondence with the people of the state, and offer their services freely in all cases where they may be of any benefit.

If published reports are wanted, a number of these can be had now, covering the work of the last six years, by applying to J. H. CONNELL, Director.

A DEVICE FOR KILLING TICKS.

The Station has already built a large vat similar to Mr. Kleburg's for dipping horses and cattle to kill screw worms, lice, mauge, ring worms, etc. It consiste of a V-shaped vat, 24 feet long and 6 feet deep, and has a capacity of about 5,000 gallons. The cattle are driven through a narrow chute and on a trap door, which is balanced on the edge of the vat in such a manner that when the animal comes on it, it tilts, thus compelling the animal to slide into the vat. This device we believe to be the only practical means, so far suggested, for destroying ticks on a large scale.

The Station intends to work along this line the coming summer, and will also work experiments for the Stock Commission. The cost of the vat was about $100. Those interested in the subject will recieve plan of construction and suggestion as to dipping by applying to M. FRANCIS.
Texas Experiment Station.

"ALKALI."

The term "akali" as ordinarily used, when applied to water or soil, conveys very little accurate information as to its nature; unless one has learned from experience what to expect. Usually, a water that tastes "bitter" (acrid) or salty, is called an "alkali." While a soil that will not grow crops is denominated an "alkali" soil.

There are considerable quantities of both of these in this state and samples of each have frequently been subjected to analysis in this laboratory. The most common form of this alkali is sodium chloride, common salt; at the same time a very dangerous form for plant life. The Pecos river water contains so much of it that along the smaller ditches, and flats that catch the overflow from these, where the water is allowed to slowly evaporate and sink into the soil, a white sediment of salt is left in such quantities as to be easily scraped from the surface. It frequently gives rise to "alkali spots" in a field, especially in the western part of the state.

It cannot be eliminated from a soil, by treating with chemical substances; but there are certain plants that absorb very large quantities of it—notably beets and sorghum; and much of it can be removed by successive crops of these. When irrigation water can be had it may frequently be partially washed out of the soil by

Next to common salt, Sodium Carbonate "Soda" is perhaps the most common "alkali"—it is more injurious than the Chroride—quantity for quanti ty. But can be destroyed by application of Gypsum-Plaster to the soil. This salt is really alkaline, "Caustic" in its character, and is especially destroying to young plants.

If applied to the soil in solution, by Irrigation, its influence is only quicker. My attention has been called to the existence of this "alkali soil" even as far east as Brazos (this) county. But it is also most common in the Western part of the state.

But in Texas these soils or waters do not exist to the extent found farther west, Colorado, New Mexico, Arizoni, California, Utah, the Dakotas and Nevada all have large areas of alkali soils—over which are found alkali waters in greater or less quantities.

Magnesium-Chloride, Borate of soda, (Borax) and Calcium-Chloride, also add, in small quantity, to the existence of alkali soils or waters.

DROPPED DEATH DOWN.

One Hundred Pounds of Dynamite Dropped Down a Shaft, Killing Eleven Men.

A FRIGHTFUL VENGEANCE.

Cripple Creek, Col., May 25.—Eleven men killed, with a strong probability that the number of dead will be increased when all is known, is the record of the first day of trouble here, although the real fighting has not yet begun, as the deputies are awaiting reinforcements before beginning active operations.

At 10 o'clock this morning eleven men started to work in the Strong mine. Shortly afterward a large party of strikers blew up the shafthouse with powder, causing a loss of $25,000, and then dropped 100 pounds of giant powder down the shaft, which was also exploded, killing all the inmates.

Not more than 300 yards from the Strong shafthouse sixteen men who had been engaged to go to work in the Independence mine were surrounded in their bunkhouse and after a long parley agreed to surrender. Each one was armed with a rifle and a brace of revolvers. The arms are now in possession of the strikers.

It is rumored that the strikers attacked the Anna Lee mine, overpowering the guards, and after which they blew up the shafthouse, but the rumor has not been verified.

When the deputies are finally massed and the two forces come together a most desperate fight will doubtless be fought.

The situation at 6 o'clock tonight is one of most painful anxiety. Not a few believe the town will be a smouldering mass of ruins by another sunset if the strikers be not restrained.

At Victor, six miles away, where fully 1000 people reside, a reign of terror exists. Within a half mile of the corporation limits of the town all day long fully 300 union miners, all armed with rifles, have paraded up and down the side of the hill. Occasionally a detour in the village would be made and people whom the miners thought to be objectionable were ordered to leave the place. The guards from Denver upon arrival at Victor went into camp upon a neighboring hill. The strikers threw out a picket line entirely surrounding them, but at a distance that guarantees safety from the deputies' rifles. It is said that the strikers have planted under their breastworks on Bull hill a quantity of dynamite with the intention of blowing it up if it should be taken and occupied by the deputies.

One of the largest mine owners in Colorado Springs is authority for the statement that the mine owners have planted

manding the breastworks and that it will be used against the strikers.

The strikers on their stronghold on Bull Hill can view the country for miles, and all passes are guarded by them. Every stranger is intercepted and not allowed to proceed toward the town, unless a satisfactory explanation of his business is given. No one is permitted near enough the seat of war to be in danger and the streets of Cripple Creek and Victor, as well as the passes, are patrolled by miners carrying Winchesters and revolvers.

The capture and disarming of deputies numbering eighteen was accomplished by women, and ever since the occurrence two of the women have been holding high court in a saloon, where the strikers shower congratulations on them. Two wagons loaded with powder and cartridges, for one of the mines, were captured by the strikers and their contents confiscated.

Sam McDonald, superintendent of the Strong Anna Lee and Gold King mines, and Charley Robinson of the Strong are missing, which give credence to the story of slaughter. If the men were in certain portions of the mine the concussion may have killed them. Sam Strong, owner of the mine, is given as authority for the statement that eleven men were killed. It is raining furiously and a further move to night is not looked for.

Questions to Hon. Horace Chilton.

The following questions are clipped from a recent issue of The Dallas News and might also be directed to Culberson, Cochran, Reagan and other candidates in Texas.

Reagan, Tex., May 7.—To Hon. Horace Chilton: You are a candidate for United States senator, and as such are now engaged in presenting your claims to said office to the voters of the state of Texas. This is right and proper. As an American citizen you have the indefeasible right to run for any office you choose, and as a candidate it is proper that you should publicly express your views upon public questions. Circumstances, or rather the action of certain politicians in the democratic party, has forced the question of free coinage of silver at a ratio of sixteen to one to the front; and in your opening address at Georgetown you declared yourself on the affirmative side of that question Therefore it is presumed that you will not object to answering the following questions, which are put in perfect good faith:

1. Do you believe that the government makes values by legislation, or are they established by the natural and universal law of supply and demand?

2. Do you believe that the present depreciation in the value of silver, or, if you prefer to so call it, the present appreciation in the value of gold, is the result of our national legislation?

3. Do you believe that the legitimate object of governmental coinage is to fix the value, or only to determine the weight and fineness of the coin?

4. If your answers to the above questions are yes, and you really believe that governmental legislation will have that effect upon gold and silver, why will not similar legislation have the same effect upon the value of cotton, corn, wheat, etc., and are you in favor of the government's establishing a lucrative price for these products the same as for silver and gold?

5. If the coinage stamp of the government upon 412 1-2 grains of silver will make it just as valuable as 25 8-10 grains of gold why will not the same stamp produce the same effect on the quantity of tin, or any other metal?

6. If it is the duty of the government to fix an established and unchangeable value for gold and silver, both the products of human labor applied to natural resources, why is it

ment to fix an established and unchangeablue value upon all products of human labor applied to natural resources?

7. If the cessation of free coinage of silver at the ratio of sixteen to one is the cause of business depression, and the low price of labor in this country, what is the cause of a similar condition existing in our neighboring republic of Mexico, which has, ostensibly, at least, free coinage of both metals at approximately the same ratio?

8. Many advocates of free coinage of silver at present ratios ascribe the present low prices for farm products to the low price of silver. Do you believe this, and if your answer is yes, will you please tell us what was the cause of the same trouble during the period from 1842 to 1849, when the same products were much lower in price than they are to-day, and yet during those years silver bullion was worth a fraction more than its coinage value?

9. In the estimation of the world there is a difference of about 51 cents in the value of our silver and gold dollars. Common sense teaches us that two different things can not be the same thing. Which of these two dollars do you recognize as the true unit of value?

10. Some people tell us that this divergence in value has arisen more through the appreciation of gold than the depreciation of silver. Do you believe this? If yes, why then do you not boldly advocate the reduction of the amount of metal in a gold dollar to its nominal value? That would be a simple proposition which everybody could understand.

These questions are put with no desire to annoy or embarrass you in your canvass, but simply for information. A careful perusal of your Georgetown speech does not give the necessary light. On that occasion you said: "The democratic advocates of silver coinage unqualifiedly repel the imputation that they do now or ever have desired to coin any money which does not hold a par value with all other sorts of money in circulation."

A little later on you declared yourself in favor of the free and unlimited coinage of silver at a ratio of 16 to 1. According to market reports, under the date of May 5, silver was worth 63 1-8 cents per ounce in New York. At that rate there is a little less than 49 cents worth of metal in a silver dollar, but you say it must "hold a par value with all other sorts of money in circulation." Where is that additional value of 51 cents to come from? Does the government make it in the process of coining or not? That is the conundrum we can not solve.
Very respectfully,
J. E. DAVIS.

Thomas Gaines Dead.

Comanche, Tex., May 27.—Thomas Gaines, well known in this state as a populist politician, died to-day in this place, of typhoid fever. His funeral obsequies will take place tomorrow.

Cleveland Endorsed.

The Alabama state democratic convention places the following clause in its platform:

The democracy of Alabama, in convention assembled, reaffirm the principles of the democratic party as declared in the platform of our party at Chicago in 1892, and congratulate the country upon the success of those principles in the triumphant election of Grover Cleveland, who, by his generous treatment of our people, has shown that he is the president of the whole country, knowing no north, no south, no east, no west. Recognizing the wisdom and patriotism of our president, and believing in his fealty to the principles of our party, we indorse his administration. While some of us may differ with him in matters of policy, we are agreed in the belief that he is impelled by motives of highest patriotism and by an unselfish devotion to the highest good of the whole people.

Silver Among the Gold.

Customer—Look here, sir; this butter is full of gray hairs.

Grocer—That's all right, ma'am, we are in favor of silver, you know.

Customer—Yes, but I want the ratio to be at least 16 to 1.

Pierce Guarantees a Cure.

Dr. R. V. PIERCE: Dear Sir—When about three years old I was taken with measles and fever, finally I had that dreaded disease Scrofula. The most eminent physicians in this section treated me to no avail. I had running scrofulous sores on left side of neck and face. I was small and weakly when eight or nine years old, and in fact was nearly a skeleton. Six bottles of Dr. Pierce's Golden Medical Discovery wrought marvelous changes. Although the sores were healed in eight months, I did not quit taking it until I was sure it had been entirely rooted from my system. The only signs left of the H. M. HOLLEMAN. dreadful disease are the scars which ever remind me of how near death's door I was when rescued by the "Discovery." I am now eighteen years old and weigh 125 pounds; and have not been sick in five years. Yours respectfully,
HARVEY P. HOLLEMAN,
Asst. Frt. Agt. Seaboard Air Line.

AUSTIN BROWN.

Terror Was Written on His Face as He Ascended the Scaffold.

San Antonio, Tex., May 25.—Austin Brown, colored was hanged to-day, at 11 o'clock, in the Bexar jail, for the murder of Anderson Harris, a colored ex-policeman. The condemned man slept very well during the night and awaking at 6 o'clock spent the remainder of the forenoon praying with his spiritual adviser, Father Emery, of St. Francis Xavier's Catholic church.

He ascended the scaffold unassisted, but with terror written on his face. After another prayer he was asked if he had anything to say. In a tearful voice he bade his friends good bye, saying he was going home.

The black cap was then placed on his head, his hands and feet pinioned, the noose adjusted and the trap sprung. There was noticeably but one movement of the shoulders and after a minute and a half his heart ceased to beat and he was dead. His neck was broken.

A CHURCH FIGHT

Results in the Death of Two Men and Others Wounded.

Hazleton, Pa., May 27.—During a riot to day at St. Casimirs Polish church, at Freeland, Victor Lipnoky and Peter Qosmiky were fatally and James Travinski and Joseph Dutch were less seriously injured by the weapons of the police, and Chief of Police Jas. Gallagher and Officer Jones of the police force were cut and injured by stones thrown by the crowd.

A factional fight has been waged for a year in the church, and the enemies of the pastor, Father Mazotos, attempted to prevent the men firing the church. His police escort was attacked by the mob and the officers fired on them.

Denounce Hill.

Evansville, Ind., May 25.—The First congressional district democrats at Rockport renominated Arthur H. Taylor for congress.

Resolutions denouncing Hill, Brice and Gorman as Benedict Arnolds of the democratic party and demanding that sugar be put on the free list were passed. They also demand that the income tax be retained in the tariff bill as it came from the house.

Maxims For Lovers.

The women who are most easily won are the most difficult to preserve, and vice versa.

To pretend that a prudent marriage generates love is the same as to sow pumpkins and wish them to produce melons:

To obtain nothing, to suffer always and always love; one of the daily miracles of love.

To see everything with closed eyes, to see nothing with open eyes; other daily prodigys of love.

Man do you want to be loved? Be strong in muscle, in brain, in rashness of passion or in the flash of genius. The woman who admires is the vigil of love, nature has made you the defender of the family, the rouster of latent forces, it has made you a soldier to love and to live; you must be strong.—Cincinnatti Tribune.

SAILED THE SEAS 38 YEARS.

One of His Experiences.

For thirty-eight years Capt. Loud followed the sea, most of that time as master of a vessel, and upon retiring from the water was appointed by the Secretary of the United States Treasury to superintend the seal fisheries in Alaska, which position he held five years. He relates one experience as follows:

"For several years I had been troubled with general nervousness and pain in the region of my heart. My greatest affliction was sleeplessness; it was almost impossible at any time to obtain rest and sleep. Having seen Dr. Miles' remedies advertised I began using Nervine. After taking a small quantity the benefit received was so great that I was positively alarmed, thinking the remedy contained opiates which would finally be injurious to me, but on being assured by the druggist that it was perfectly harmless, I continued it together with the Heart Cure. Today I can conscientiously say that Dr. Miles' Restorative Nervine and New Heart Cure did more for me than anything I had ever taken. I had been treated by eminent physicians in New York and San Francisco without benefit. I owe my present good health to the judicious use of these most valuable remedies, and heartily recommend them to all afflicted as I was."—Capt. A. P. Loud, Hampden, Me.

Dr. Miles' Restorative Nervine and New Cure are sold by all druggists on a positive guarantee, or by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, or six bottles for $5, express prepaid. They are free from all opiates and dangerous drugs.

Bethany Items.

Bethany, Tex, May 27, 1894

Editor Democrat.

The farmers are very busy chopping cotton. Everything is looking fine. Wheat harvest will begin here next week.

We smelled the delicious odor of wedding cake last Wednesday, but failed to get a taste. Mr. A. T. Miller and Lelia M. Farrell of east Bethany were linked together in the holy bonds of matrimony at 4 o'clock last Wednesday. Immediately after they were married the hungry guests partook of a bounteous supper, prepared by the little 15 year old bride and her mother, after which they followed up with an old-time dance, which lasted most all night. The bride is one of Bethany's most popular young ladies. Mr. Miller is an energetic young farmer, liked by all who know him. We extend our congratulations to the happy couple and wish them a long and happy life.

Capt. W. N. Bush gave the young folks a party last night. They called it a tackey party. Miss Bell Christy and Bell Smith won the cake for being the tackiest looking couple there. All had a delightful time.

Several of the Bethany citizens went out on Elm fishing last week and were gone three or four days. They report getting lots of bites but not many fish, (mosquito bites we presume.)

Mrs. E. C. Forbes, while going to Allen last Friday, was thrown from her horse. The scare made her very sick for two or three days but was not hurt very bad,

The Matthews and Carpenter new gin is progressing very rapidly. Bethany is on a boom. Space will not permit me to name all the improvements that are going on here, but will tell in the near future. We would like to know what has become of C.F. Trotter. We would like to see him back at Bethany again. He has many warm friends here who would be delighted to see him back.

BLUE EYES.

Cochran at McKinney.

McKinney, Tex, May 29.—Hon. John H. Ccohran spoke to a fair audience at the courthouse this evening. His speech was mainly upon state matters in which he believed in retaining the laws passed by the twenty-third legislature, but insisted that new questions should be met. He differed with Mr. Lanham in regard to curtailing the number of state representatives and increasing the pay. Upon national issues he differed from President Cleveland on the question of finance, but will not join the populists in abusing him. He differed with populists who say there is no difference between the two old parties.

In opening his speech Mr. Cochran said he was making his canvass with only traveling expenses; that he was not spending money in scattering "opening speeches" and in paying newspapers to run cuts of him with biographical attachments.

His indorsement of the late supreme court decision on the commission law recieved slight applause.

Dyspepsia and Consumption

Health and Strength Cone

Advised to Take Hood's Sarsaparilla and is Cured.

"C. I. Hood & Co., Lowell, Mass.:

"I am glad to say that I am in better health now than I have been for a long time. Myself and wife have taken Hood's Sarsaparilla for the past four months, and I can truly say that it has done us more good than any other medicine we have ever taken. I was troubled with dyspepsia for over two years. I also had a slight touch of consumption and was frequently off duty.

Unable to Work.

I spent a good portion of my earnings for doctors' bills and other medicine which did me good only for a little time. My employers urged me to take Hood's Sarsaparilla so I bought one bottle and began its use about the first of April, at that time weighing only 150 pounds although my usual weight was 180 pounds. After using the bottle I felt that I was better, so I purchased five more bottles. I am taking the sixth bottle now and since commencing to take Hood's Sarsaparilla have had only one slight attack of illness. My present weight is 165 pounds, and I do not feel that I was ever sick in my life." E. D. HUBBARD, Laurel, Mississippi.

Hood's Sarsaparilla Cures

Hood's Pills cure all liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

Suspicious Characters.

McKinney, Tex., May 26—Two suspicious looking characters rode into this city this evening at 4 o'clock, each armed with a winchester. They appeared to be about 22 years old. One was riding a sorrel horse and the other a bay horse. Each had a bundle tied behind his saddle. The horses were jaded. They put their horses in a wagon yard, where they left their guns, after which they walked out on the streets. One was seen to purchase a copy of The Dallas News. Then both entered a barber shop and were shaved. A little before sun set they left toward the north on the Sherman and Dallas road.

Policeman Warden was the first to discover them on a back street and is confident they suit the description of the Longview bank robbers. Dr. J. T. Taylor, who had been out on a bicycle, arrived here a little after sunset and reports that he met them a a short distance north of the city. They were loading their winchesters, after which they entered an empty cabin on the roadside.

Marshal Sam Burk and Constable Joe McKinney left at once in pursuit of them.

(The above dispatch appeared in The Dallas News of Sunday. The pursued suspects proved to be innocent parties.)

Hon. John H. Cochran said a "funny" thing in his speech here Tuesday last. He urged all democrats who had left the party to return to the same. He admitted that there were many differences of opinions in democratic ranks and remarked: "If the homogeneous element of the democratic party was to leave it there would not be a corporal's guard left."

Prof. J. H. Connell, of the A. & M. College was in the city this week. He visited the experimental station, near this city, managed by Mr. John Ferguson, and express himself as well pleased with the management and result to date.

Bois 'd Arc School Picnic.

Friday last we had the pleasure of attending a picnic in commemoration of the commencement of the Bois 'd Arc school, which has been ably conducted by Prof. E. R. Hall. The picnic was held in a beautiful grove on the banks of Wilson creek, south west of the school house. The crowd was of a comfortable size and were most highly entertained by the good people of that community. Not a hungry man escaped, even unto the reporter, after a week's fasting, preparatory for the auspicious occasion. Substantial edibles, pies, cake, jellies, fruits, &c., &c., were in profusion. Wagons and buggies were stacked full of the necessaries of life. Even from the boughs of the trees baskets hung, while here and there a big, nicely boiled ham weighed down a stout limb. It was a glorious affair and every body smiled and were happy, especially around the dinner spread. It is thought Tom Jones was the greediest man present as he was seen on his return home with an arm load of cake and pie. Tom is a Hogg man and never fails to be consistent with his politics.

Among others present whom we noticed from McKinney were: T. F. Mangum and lady, M. E. Terry, Gabe Lucas, Tom Boone, J. T. Andrews, W. L. Yarbrough, Yancy Powell, R. D. Allison, Wood McDonald, Joe McKinney, Dick Howard, Sol Fitzhugh, J. H. Cable, Joe Anthony and lady, Edgar Board, Geo. L. McKinney.

All honor to the good ladies of Bois 'd Arc community for the hospitality displayed by them. To their industry and good judgment is mostly due the success of the picnic and is so regarded by those who were present.

The boys enjoyed a game of base ball during the day.

At night a school exhibition was given by Prof. Hall and his school, which was rendered very creditably to a large appreciative audience.

The free library and reading rooms of the Baptist church were formerly opened Friday by the rendition of an excellent programme, suitable for the occasion, consisting of speeches by Mayor Pearson, the different divines of the city and many citizens, recitations, songs, etc., by the fair sex and a contribution of books from the citizens generally; notably among which was a volume of the political history of the nation, tendered by Hon. J. W. Throckmorton before his death. A secretary will be in charge and the rooms will be open every day for any one who may wish to take advantage of the opportunity to improve his or her leisure hours. Besides carrying historic and other periodicals usually found on file at public libraries, all the leading newspapers of of the latest dates will be regularly kept. Rev. Dr. Baten, pastor of the Baptist church of this city, has been the prime mover in the enterprise from its incipiency, and deserves credit for its success. After the programme was rendered every one in attendance was invited to the palatial residence of Mr. Tom Melton and wife, just south of the church, where a good, old fashioned hand shaking was indulged in, refreshments served and the enjoyments of a lawn sociable participated in.

Democrat Supplement.

McKINNEY, TEXAS, THURSDAY, MAY 31, 1894

U. M. BROWDER INTERVIEWED.

His Views in Brief. His Opinion of Baileys' Course in Congress.

HE STANDS READY TO OBEY THE DEMANDS OF THE POPULISTS.

The name of Elder U. M. Browder, of Gainesville, Texas, has been used freely in connection with the race for congress in the 5th district on the populist ticket. Mr. Browder has a state wide reputation as a strong debater, an upright, honorable gentleman with undoubted ability. He is at present serving as pastor of the Gainesville Christian church, but has his resignation pending with that church. He is admired by both political friends and foes and if nominated will make a strong race. A DEMOCRAT reporter had the pleasure of intercepting your name is being mentioned in nection with the populist nomination for congress in the 5th district, have you any statement to make regarding the matter?

"I have been solicited by my friends to allow my name used in this connection, not only without solicitation on my part but without my knowledge until accosted by my friends. I had not the slightest intention or ambition in this direction till my friends, about 500 in number, kindly invited me to accept, at the hands of the populists, the nomination. I promised them that I would carefully consider their request and answer them in due time. My answer is, that the voice of the people with whom I stand identified politically, shall settle the matter as to who shall represent them in the race for political supremacy in the 5th congressional district."

What is your opinion of the political situation, both national and state?

"My studied opinion is now, and has been for years, that our government, as a result of extravagance and mismanagement, is in a critical condition, which demands the immediate attention of the whole people. That steps must be taken to place the people equal before the law, by stopping class legislation, and allowing the majority and not the minority, to rule the people. That our present sorry condition, as a government, is due to the fact that the money power of Europe and America moulds the financial policy of our government. Wholesome laws for the entire people without the intervention of biased politicians and lobbies, is imperative. A regeneration of our financial system so as to stop the ungodly speculation carried on by the few who own the money of the country. Money issued by the government itself, which is according to the spirit of the organic law of the nation; issued to the people without the intervention of banking corporations. That the future prosperity of this country depends upon overthrowing the shylock rule of the money power. The affairs of our government have been so administered, under the influence of corporations and lobbies, that the true object of government, which is person[illegible] and property, seems to be lost. 'A change must come."

Have you anything to say in regard to the course of Hon. J. W. Bailey in congress?

"As to Mr. Bailey's course in congress I have but little to say as there is in fact, but little he can do, considering his precarious environments. However good Mr. Bailey's intentions might be to fully and fairly represent his people, the fact that he is not, and in the very nature of things cannot be, in sympathy with the administration at Washington and fully one-half of his constituency at home, wholly disqualifies him for a fair and faithful representative of the people, on the grounds that, 'when he would do good evil is present with him.' In other words, Mr. Bailey has too many strings fastened to him to even be himself. Mr. Bailey's course in congress has been in favor of perpetuating the miserable extravagance in the use of the people's money, first inaugurated by republican rule, and now endorsed by a democratic congress, and Mr. Bailey's vote is recorded on the side of this legalized robbery of the people's money. I refer to his voting for the clerk hire bill, which creates an additional expense of twelve hundred dollars to each member of congress, amounting to multiplied thousands of dollars. How his support of this bill can be reconciled with the fact that the greatest feat accomplished in the last congress was to get out a quorum, is a problem without solution. Congressmen, it seems, have plenty of time and but little to do, yet this additional expense of many thousands of dollars is imposed on the people without the shadow of necessity or excuse for such a measure. If Mr. Bailey has the time to leave Washington and come to the Indian Territory to inaugurate a cattle king's conference to defeat the will of the common people, he certainly has sufficient time to perform the duties of his office without the extra $1200 to pay clerk hire. The enormity of this unnecessary extravagance will be better understood when you multiply this twelve hundred dollars by two, which give twenty-four hundred dollars to Mr. Bailey for a term of two years, then multiply by the number of members in congress and you have some idea of this additional expense in the administration of the affairs of our government. This, however, is in keeping with the same principle that pays large sums of money for fine horses and carriages to haul to the house absent members in order to get a quorum. And yet, they vote themselves one hundred dollars a month in addition to their regular salaries, to pay special clerks. This is certainly a great mistake for which Mr. Bailey can make no apology. If half of the members of congress had been populists and they had all voted for this measure, I would, nevertheless, denounce it as a miserable blunder. With the interests of the common people at heart, no such imposition could be practiced on the people."

What is your opinion of the moving armies of unemployed working people toward the seat of government?

"The moving armies of unemployed men in the direction of the seat of government, are actuated by a spirit of unrest and discontentment, growing out of our financial depression, which has thrown many of them out of employment. The men, if they are sincere, have the sympathy of every honest American, notwithstanding we cannot see any good they can accomplish by the methods they employ. The laboring men of this country should have gone to the seat of government years ago, but by the way of the ballot box. This method is in their hands, and should have been employed so as to save the people from a species of despotism which now burdens the masses. The law makers of this country seem to have forgotten the masses in their legislative enactments; they seem also to have forgotten, if they ever knew it, that labor furnishes the true standard of value. The great problem of how to set every man to work, and to so order the affairs of government that labor shall receive its full reward, should have been solved in the halls of congress during those years when too much attention was paid to money and corporation lobbies. Had this problem been solved, had the masses been fairly and honestly represented in the congress of the United States, we could easily [illegible] our present financial disaster and commercial depression, which have filled the country full of unemployed men, from California to Washington city. We are in full sympathy with them in their miserable condition, but we cannot endorse the methods they have employed.

McKinney, Tex, May 26—C. D. Streeter, son of Hon. A. J. Streeter, of New Windsor, Ill, is in the city transacting some business for his father, who has considerable money invested in loans in this county. He declined to talk politics but he volunteered to say that he was highly pleased with this part of Texas, especially with Collin county, as he had traveled over the larger portion of it. He thought McKinney a beautiful little city.

GOVERNMENT INCONSISTENCY.

The Royal Family and the Unemployed.

Anna, Tex., May 28 1894.

Editor Democrat:

I have been looking over my newspaper "relicts". My attention was especially attracted by an article from the pen of the Washington "special" correspondent of the Dallas News, which I wish to here reproduce in part, and I hope every reader of THE DEMOCRAT will read and consider the same. It is dated at Washington, May 7, and reads as follows:

"The spectacle that greeted the public eye when the Infanta Eulalie, of Spain, and her husband arrived in Washington was, in the highest degree, ridiculous.

"A battalion of calvary, stationed at Fort Meyers, just across the Potomac, from the capitol, was called into service, and was at the depot for the purpose of making some little show,

"The Infanta and her husband were bundled into a carriage drawn by four horses, the millitary blew its horns and away the mob started down Pennsylvania avenue.

"The four horses was a concession to the idea that all things done for royalty must be done in an exagerated way The calvary was there for the same purpose.

"First, came the calvary, the buglers winding their horns with might and main. Then came the Infanta in her coach with Secretary Gresham by her side. Her husband and other members of the party followed in carriages to the number of four or five. All the time the Spanish woman seemed at ease. Indeed she seemed to like being driven down a public street like a circus elephant to be gazed at.

"Whe she went to the capital the officers of the senate laid down rugs and scraps of carpet for her to walk on from her carriage to the building."

In speaking of the manners of the president and wife toward this royal visitor the writer said:

"They sent her some flowers and bade her welcome.

"The president and wife called first and the Infanta returned the call."

Contrast the above, ye men who profess to love liberty, with the manner in which the bands of petitioning unemployed American workmen are being received and treated at the same opulent city that extended to the royal Spaniard such a grand reception. I say city for the people had no hand or say so in such disgraceful fawnings to the so-called foreign royalty, and while the people may not approve of Coxey's plans, neither do they approve of the unchristian and inhuman treatment heaped up on the unemployed Americans by the same would-be American nobles. Concessions to royalty are right with the Cleveland so-called democrats, but a proposition to receive the petition of unemployed workmen, is downed before it hardly gets up.

ROX.

What Contraction Has Done.

The National Watchman, D, C., says, regarding the contraction of our currency:

It has reduced the price of cotton from 25 to 6 cents per pound.

It has reduced the price of wheat from $2 to 50 cents per bushel.

It has reduced wages to one-half of what they were.

It has doubled the value of all railroad stocks.

It has doubled the value of all bonds and other evidences of debt.

It has doubled the value of all salaries, so that a congressman on a salary of $5000 a year is receiving practically twice as much as he did twenty-five years ago.

It has increased the burdens of the producing classes and doubled the fortunes of the bondholding and moneyed classes.

It has made 7,000 millionaires and three million tramps.

It has robbed the aged of the enjoyments of life and the young of the advantages of education.

It has thrown 3,000,000 out of employment.

It has put 150,000 children under 14 years to work in the factories.

It has placed 9,000,000 mortgages on the farms of the country.

It has made the rich richer and the poor poorer.

It has robbed the people of liberty at the ballot box and denied them justice in the courts.

It has created more suffering than war pestilence and famine put together.

It has ignored the sufferings of the people and mocked the laws of God.

It has trampled upon human rights, violated constitutions and murdered justice.

It has sent poverty and distress to the homes of millions.

It has stood in high places and under the plea of an "honest dollar" boldly robbed the producers of millions of their sweat earned product.

The Newspaper.

Gen. Jackson, when president, said to one of his fiercest opponents:

"Send me your paper. I know you oppose me, but then I should like to see your paper everyday; I want to see how many lies you can tell on me."

"General," said the editor, "I think I do right in opposing you, and I shall continue to do so with all the ability of which I am master."

Here was a man after Jackson's own heart, and he instantly replied, with an oath.

"Sir, send me your paper, for, aside from your abuse of me, your paper is a good one. Besides, I never saw a newspaper in which I could find nothing worth reading."

Just so. No man can pick up any newspaper without finding something of interest. You may take the paper and tear it in fragments and in each fragment you will see something to amuse or instruct you, —Ex.

Wm. J. Bryan, the young and talented democratic congressman from Nebraska, will not be a candidate for re-election. His district is republican by 6,500 majority and he was elected by a majority of only 140. He says if the president's financial policy becomes the policy of the party there will be no reason for the continued existence of the party, for that is the policy of the republican party which is better prepared to support it.—Post Mirror.

Another squad of the industrial army has been canvassed to learn how they voted. Out of the forty advance guard who reached Washington about ten days ago and were jailed, 37 voted the democratic ticket, two were republicans, and one didn't vote. If these fellows haven't a right to go to Washington and interview their White House josh, who has?—Minneola Courier.

That is what the Truth has been saying for some time. Coxey's army is mostly democrats; of course there is a sprinkling of republicans, but no populists. The populists are not expecting anything from this congress. They are not asking anything from Mr. Cleveland. The administration has pursued exactly the policy that we predicted, and we are not disappointed; but the fellows that voted themselves out of a job are. Coxey's army elected Mr. Cleveland and they have a right to make demands. —Corsicana Truth.

A great many of our American colonels are now on the hustings fighting windmills.

When one's cash begins to circulate too rapidly one can see it melt away.

The Jersey mosquito is a blooded fowl.

Emperor William is said to be colonel of twenty-seven regiments. That is nothing. There are hundreds of small towns in this country with twenty-seven colonels each who never saw a regiment in their lives.

CHANGE OF LIFE.

A Trying Ordeal in Woman's Life Made Easy.

Pe-ru-na is the favorite remedy during Change of Life, as it not only palliates the disagreeable symtoms during the trying ordeal, but guards the system from the many chronic ailments which are liable to set in. Pe-ru-na promptly relieves the nervousness, sleeplessness, throbbing, hemorrhage, rush of blood to the head, palpitation, indigestion, painful menstruation, leuchorrhœa and faint spells, from which most of these patients suffer. It acts as a preventive against dropsy, heart disease, enlargement of the liver, and kidney diseases, which are so frequently acquired at this time.

Mrs. Diley A. Mason, of White Wright, Texas, says in a letter to Dr. Hartman: "I was a sufferer from the Change of Life. I thought I had everything. I got six bottles of Peru na and one of Man-a-lin and took them. I am now sound and well. I improved immediately on taking Pe ru-na, and am now as well as ever in my life."

"TOO LATE"

Says The Louisville Courier-Journal.

An intelligent correspondent, after reviewing the tariff reform pledges of the democratic party and the betrayal of the cause by the party's agents in congress, expresses the opinion that it is not yet too late to save the day. "Let mass-meetings," he urges, "be held in every county in the Union where there is a score of democrats. Let resolutions be passed denouncing all traitors to the cause of true democracy in and out of congress. Demand a revenue tariff, economy in public expenditures and a general redemption of the pledges as embraced in the Chicago platform. If from any cause congressmen are unwilling to do this, let them be invited to resign."

We fear it is too late now to make this course effective. If a year ago, or even six months ago, the democratic masses had known the weakness and infidelity of their leaders in congress, such popular demonstrations as our correspondent suggests would undoubtedly have done much good. Nor would more than a suggestion have been necessary to insure them. On the contrary, the whole democratic country would have uprisen in a spontaneous expression of amazement, indignation and demand which could have made no doubtful impression upon congress and which would have prevented the present disgraceful situations in the senate. The time for such demonstrations, however, has long since passed. They would lack now the elements which would have once made them effective. Besides the people would not take the trouble now to make such demonstrations. The course of congress, and especially of the senate, has so disgusted them that they have lost all patience with that body, and only desire to have done with it as soon as possible. They recognize the fact that it is too late to try to make a silk purse out of the sow's ear which they were cheated into believing a silk purse when there was no reason to suspect that it was otherwise.

All that they can elect now and all that they ask is that congress shall dispose of the tariff bill one way or the other and adjourn. They will have to look to the future and other representatives for tariff reform. To the present they are looking for relief from the incompetents and cowards who control the majority of the United States senate. It is not so much a question of tariff reform at this time as it is of getting the pretext of tariff legislation out of the hands of the protectionist mercenaries to whom the senate has surrendered.—Courier-Journal.

There is no doubt that the

A little face above a spread,
A little shoe upon the floor,
A little frock behind the door,
A little lad with dark brown hair,
A little blue-eyed face anh fair,
A little lane that leads to school,
A little pencil, slate and rule,
A little winsome, blithesome maid,
A little hand within his laid—
That is where he got married—
A little family gathered round
A little turf-heaped, tear-dewed mound—

Outlook is Bloody.

CRIPPLE CREEK, Col., May 28—If trouble breaks out again and it is impossible to see how it can be avoided, the results bid fair to be far more terrible than those already witnessed. The armistice declared yesterday was made of by the sheriffs to increase their forces. Nearly 400 men have been recruited in Denver and only await the slightest outbreak to be forwarded to Cripple Creek and be sworn in as deputies. The strikers seem to have taken courage from the action of Gov. Waite and affect to believe that the militia would tend to aid them in carrying out their purposes. Be this as it may, the entire district is terrorized and the strikers, being encouraged by the temporary withdrawal of the deputies, are becoming bolder and more imperative and intolerant. There is no danger that a non-partisan will be fired upon without first being warned, but when ordered to stop, it means that he must stop where his feet are resting. It is but a step from this attitude to one of the most reckless bearing and people living in the camps fear the outcome.

All day strikers have been searching for arms and ammunition in the mining camps and wherever arms, ammunition, or provisions were found they were confiscated and receipts given for them. No one about the camps except strikers are permitted to carry arms, and the strikers who reign supreme have issued the order that every able bodied man found in the camp when the real contest comes will be forced to carry arms in their ranks. The result is that many people are moving away from the camps to the city of Cripple Creek and elsewhere. Town and county officials are utterly unable to do anything in the face of such an overwhelming number of desperate men.

Longview Robbers.

Paris, Tex., May 28.—The following telegram, recieved to night, is the last information that can be obtained from the chase after the bank robbers:

Antlers, I. T. May 28,—R. Herz, deputy marshal, Paris, Texas: Don't know anything of McKee and Chancellor. Don't credit the report from Clarksville. I am positive either the robbers are in Little River mountains east of Tuskahoma or coming down the Kiamitia mountains toward Butler. I think it probable that they crossed the Frisco railroad to-day, but am sure the country east of the Frisco is sufficiently covered. Think it well to cover the country between Atoka and McAlester. Their objective direction seems to be Kiowa.

W. E. BROWNE.

On receipt of this Deputy Marshal Herz telegraphed all deputy marshals on the line of the Missouri, Kansas and Texas full instructions to watch out for the bank robbers. Deputy Marshal Mynett left Atoka to-night for Kiowa with a strong force to head them off.

The opinions of wise men ripen into judgments, while the opinions of the fool be-
